

UNIQUE SEND TUITION

Nurture • Explore • Grow

FIRST → THEN → FINISHED

A simple visual support to help make an activity feel predictable, manageable and complete.

FIRST	THEN	FINISHED
Show what is happening now.	Show the next small step.	Make the endpoint clear.
Use a photograph, symbol, drawing or a short written prompt.	Keep language clear and include only as many stages as the learner needs.	Remove, tick or move each stage as it is completed.

How you might use it

Use the format that makes most sense to the learner: photographs, symbols, drawings or written words. Keep language short and clear. The board can be adapted for learning activities, routines, transitions, practical tasks or everyday activities.

Individual first. Visual supports work best when they are matched to the learner's communication, understanding and preferences.

RESOURCE MASTER

Page 2 uses the calm Unique SEND Tuition colour palette with a simple, child-friendly layout.

PRINTER-FRIENDLY

Page 3 uses the same clear layout in a low-ink format for easy home or classroom printing.
